the

**ODE TO
ARCHITECTURE**

Stone and cork are iconic materials of Italy's architectural and artistic heritage, so they're a natural focus for Florim's new Rinascenza collection. As a collab with architect Nicola Gallizia, the collection of large-format ceramic slabs reinterprets the materials in warm hazelnut tones, making it easier than ever to incorporate them into your own home. **Floor, steps, wall (left) in Arena Conchiglia; staircase and wall (back) in Modulo Platino; wall (right) in Basamento Terra, all Rinascenza collection, prices on request, Nicola Gallizia x Florim**
